

# How To Log Into Your Webmail

Click on the Internet Explorer Icon on your Desktop or in Your Start Menu

Navigate to the website: <http://webmail.eccable.com>

|         |   |
|---------|---|
| Address | <input type="text" value="http://webmail.eccable.com"/> |
|---------|---|

You will get the Following Login Prompt

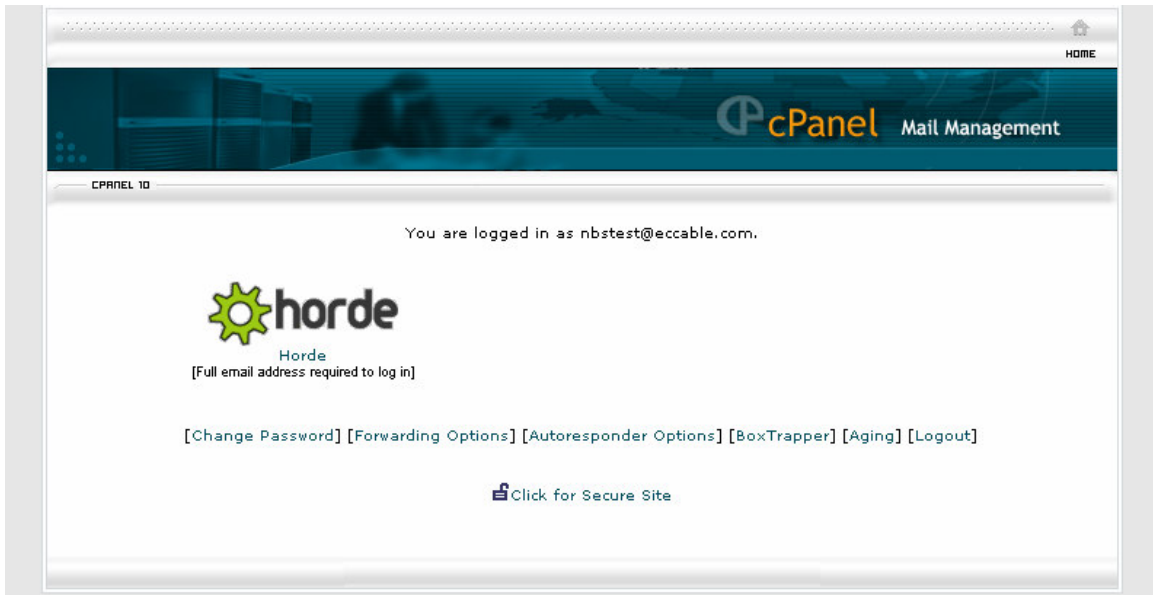

Enter your user name and Password in the appropriate areas.

For user names you name is always your Email.

Click OK to continue.

This is the Main Screen to your webmail

From here you have several available options.

Clicking of horde takes you to your Webmail

Change password takes you to a screen where you may change your login password

Forwarding options takes you to a console which allows you to set forwarding

Autoresponder Options takes you to the screen where you can create Auto Response messages

Boxtrapper takes you to the Boxtrapping console

Aging takes you to the console where you may adjust mail aging properties

Logout logs you out of the webmail console
